4) افسنی احمدیان، رضا گرگانی و رضا کالیرنیا. "زمینه‌های پیش دانشگاهی (زمینه‌های سلولی و مولکولی)." : سازمان آموزش و پرورش، 1374.

مطالعات جابه‌جایی شده در نشریات بین‌المللی

34) , , Hamidreza Moazzeni, , Paniz Rassouli, , Elham Jaber, Emad Heidari Arash, Ahmad Sadighi Gilani, Jian Bing Fan, Graig April, Sadaf Amin, Fatemeh Musavi, and Elahe Allahi. "FOX1C in human trabecular meshwork cells is involved in regulatory pathway that includes miR-204, MEIS2, and ITG81." EXPERIMENTAL EYE RESEARCH 111, no. 111 (2013): 112-121.

Yasdani, Shahin, Arezo Miraftabi, , ﺣﺴﻦ ﻗﻬﺮﻯ, Betsabeh Khoramian tosi, mohammad sedigh mortazavi, Mehdi Yaseri, and Elahe Allahi. 42

45) , , Mohammad Tghi Akbari, Shahin Yasdani, and Elahe Allahi. "Expression of CXCL6 and BBSS that may be glaucoma relevant genes is regulated by PITX2." Gene 593, no. -- (2016): 76.

1) , Y Sedaghat, , اﻓﺸﻴﻦ اﺣﻤﺪﻳﺎﻥ M Raie , and Elahe Allahi.

21) Allahi, Elahe. "High heterogeneity of CFTR mutations in Iranian cystic fibrosis Patients." 54th Annual Meeting of Am Sco of Hum Genetics,

22) Allahi, Elahe, , and . "Six Novel mutations in the translated exons of CYP1B1 in Iranian Primary congenital glaucoma Patients." Ir J Biochem Mol Biol,

23) Allahi, Elahe, , and . "Mutation ET LE Haplotype associe." Assises DE Genetique Humaine ET medicale,

26) Allahi, Elahe, , , , and . "At least 38% of Iranian primary congenital glaucoma patients carry two mutated alleles of CYP1B1." European human genetics conference, Prague.

33) Allahi, Elahe, , , , , and . "Two novel Putative disease causing misense mutations in MISI gone in Iranian gelatinous drop-like corneal dystrophy (CDLD) Patients." 9th Iranian Genetics Conference,

34) Allahi, Elahe. "The Genetics of primary congeital glaucoma in iran." Abstract book of Regional Seminar on Genetics and Clinical Medicine,

35) Allahi, Elahe, , , and . "Y184C missense mutation in TACSTD2 in an Iranian gelatinous Corneal drop-like (CDLD) Pedigree." 9th Congress of Biotechemistry & the 2th International Congress of Biotechnology & Molecular Biology,

37) Allahi, Elahe, , , and . "Study of molecular mechanism of salt resistanc in amoderately halophilic bacterium isolated from Urmia Salt Lake." 9th Iranian Congress of Biotechemistry & the 2 Internationl congress of Biochemistry and Molecular Biology,

41) Allahi, Elahe, Afagh Alavi, Mostafa Mirshams Shahshahani, and Iman Safari. "Homozygosity mapping in two large Iranian pedigrees affected with autosomal recessive congenital Ichthyosis (ARCI) reveals linkage to regions 5q33 and 17p13." the 17th national & 5th international Iranian biology conference.,

42) , Elahe Allahi, , and , "Whole exome sequencing combined with linkage analysis identifies novel variations in a large Coronary Artery Disease family." European Human Genetics Conference 2012, Nuremberg.

43) Alavi, Afagh, Mostafa Mirshams Shahshahani, Hamidreza Moazzeni, Jian Bing Fan, and Elahe Allahi. "Homozygosity mapping in a large Iranian pedigree affected with autosomal recessive congenital Ichthyosis (ARCI) reveals linkage to region encompassing NIPAL4/Ichthyn." Molecular basis of Mendelian disorders.,

51) KHani, Marzieh, Elahe Allahi, Afagh Alavi, , , and Hosein Shamshiri. "TARDBP mutations are not a common cause of amyotrophic lateral sclerosis in iranian patients." 1 internationl & 13th iranian genetics congress, Tehran.

52) , Elahe Allahi, , and , "Screening for large C9ORF72 repeat expansionamong Iranian patients with Parkinson's disea." 1st internationl & 13th iranian genetics congress, Tehran.

56) , Elahe Allahi, , and , "Repeat expansion in C9ORF72 is not a common cause of parkinsons disease among Iranian patients." ESHG 2014, Milan.

52) Shahsavar, Shayan, Shohreh Mashayekhan, Hamidreza Moazzeni, Mehran Kianirad, MohammadReza Moradi, , , Mehrab Mirrahimi, and SEIED HASSAN PAYLAKHI. "Bidirectional regulation of PITX2 and TGF-β signaling in human trabecular meshwork cells." ARVO 2016 Annual Meeting Abstracts,.

55) Allahi, Elahe. "Iranian patients affected with familial forms of hereditary motor and sensory neuropathy with proximal,.

56) Yousefi, Nilofar, Afagh Alavi, Iman Safari, and Elahe Allahi. "obesity associated locus sought by linkage analysis and exome sequencing in an extended pedigree." International Student Congress Of Biomedical Sciences 2016,.

7) Fereshteh Chitsazian, , , and Elahe Allahi. "whole exome sequencing combined with homozygosity mapping in a family with encephalomyopathy and elevated succinic carminate." 8th neurogenetics conference.
